OUR VISION & MISSION

Almis Construction and Trading Co. is an engineering driven and believe that management is about getting the right people for the particular task. People are our most valuable asset and our success over the years is due to the dedication and commitment of staff and workforce, who produce great quality in every stage of construction.

Broad Vision. Honest Service. Great Value.

To perform for our customers the highest level of quality construction services

Fair and market competitive price

To provide a high level of customer satisfaction

EXCELLENCE IN CONSTRUCTION

Management Team

- The management team proactively gathers feedback, identifies changes in construction work.
- The required work practice so everyone follows the same rules on the job site every person has its role and responsibilities.
- The company members must work as a team, communicating and combining needs and experience throughout the entire construction process. Today's buildings require a sophisticated approach toward construction service delivery.

Safety

Construction is hazardous business and Almis Construction and Trading Co. is dedicated to education, implementation and self-monitoring of all safety programs to ensure the safest working environment for all our employees

Almis Construction & Trading Co. is initiated by a group of engineers and professionals in order to participate in the all general constructions. Their main objective was to provide essential services in the reconstruction of residential complexes, educational buildings, mosques, industrial complexes for private and public sectors. Since the establishment of the Company in 1993, the company executed hundreds of projects for a long list of clients that include public institution, private entities international agencies and organizations that can be seen from the long list of projects attached here. Almis is committed to open, honest and comfortable atmosphere that meets its clients demand and employees are proud of the company's commitment to the following ideals:

Almis has undertaken many challenging projects and accumulated skills, know-how and experiences in design and build solutions, projects management services, and related engineering works.

Today, Almis takes on the role of main contractor for important projects and performs all project management services related to constructions.

Our objective is to provide our clients with an "I am assured" experience when we are chosen to execute their projects. Our emphasis on clear communication and follow-through procedures ensures that client's objectives are top priority in the planning and execution of all our processes.

OUR SERVICES

Construction Management

Almis Construction Management process exceeds project and Owner objectives through structured and consistent systems and procedures as applied by a highly-talented Project Team especially selected for each project based on their relevant experience and capabilities

General Contracting

Our philosophy for General Contracting is to proactively work closely with all members of the Project Team to identify specific project challenges and opportunities in order to develop thorough strategies to meet strict schedule and cost objectives.

Design-Build

Almis's collaborative approach to Design-Build brings the design firm and the subcontractors together in a focused, team-oriented relationship offering Owners a single source of contact and responsibility. Almis has consistently demonstrated its successful Design-Build capabilities and approach as a delivery system in both the industrial and commercial sectors in private and public industries.

Preconstruction Services

Almis's preconstruction services include design review, constructability analysis, value engineering, as well as detailed, accurate and easy to understand estimates. By maintaining a variety of disciplines and expertise within our preconstruction staff, not depending on external sub-consultants, and utilizing state-of-the art estimating software, Almis ensures our clients the best quality and cost return for their construction budget(s).

OUR SPECIALIZATION

Over the past two decades of involvement in the industries, We have focused on providing the highest quality construction services- including Design, Estimation, Construction and Management.
